

District Spotlight

This data sheet shows how San Francisco Unified School District (SFUSD) is serving its students of diverse backgrounds (Latino, African American, English learners, and students with special needs), based on the latest state test scores in English language arts (ELA) and math. It also shows the percentage of students who are graduating from the district and the percentage of graduates who have completed the coursework necessary to apply to a University of California or California State University, as of 2018-19.

In 2018-19, SFUSD enrolled 52,498 students, with Latino students making up 27% and African American students making up 7% of students enrolled in the district. While SFUSD maintains strong academic results for its White and Asian students, too many Latino and African American students are left behind.

Quick Facts

12% (or 6,275) of all students in SFUSD have been diagnosed with a disability

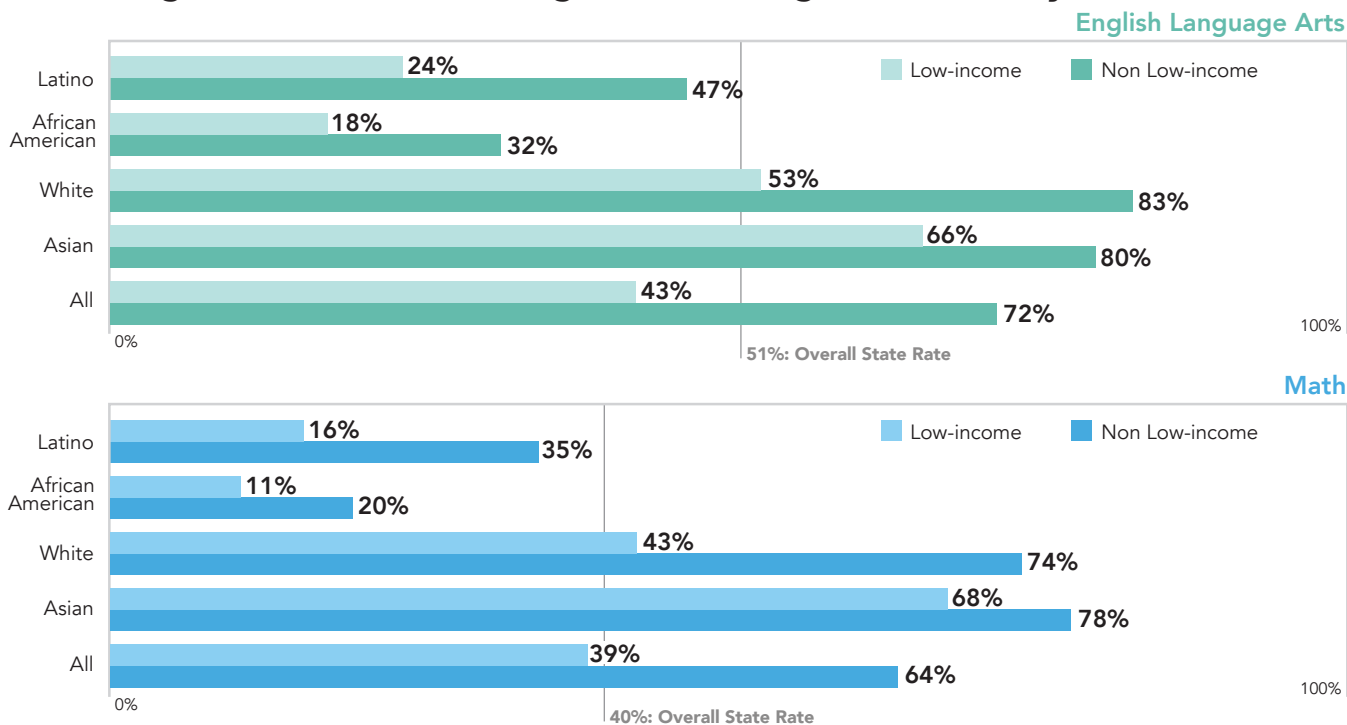

28% (or 16,960) of all students in SFUSD are English Learners

54% (or 28,556) of all students in SFUSD are low income

Source: California Department of Education student enrollment files, 2018-19

Percentage of Students Meeting or Exceeding Standards, by Race and Income

Source: California Department of Education, California Assessment of Student Performance and Progress (CAASPP), 2018-19

Latino Student Spotlight

Latino students make up 27% of students in SFUSD (14,367 in total). The Latino Student Spotlight includes all of the schools in the SFUSD serving at least that same percentage (27%) of Latino students.

For each school below, the pie charts show what percentage of Latino students are enrolled. The bar charts show what percentage of students are on grade level. The Latino state rate lines show what percentage of all Latino students in the state are meeting or exceeding standards within that specific subject area (English language arts or math) and level of education (elementary, middle or high school). The overall state rate lines show what percentage of all students in the state are meeting or exceeding standards in that subject area and level of education.

Note: Schools with nontraditional grade spans are included more than once on this sheet. Performance data was calculated with publicly-available data, and may be limited for some schools because the CDE does not report data for population sizes under 17 to ensure student confidentiality.

African American Student Spotlight

There are 52,498 total students in SFUSD, African American students make up 7% (3,465) of that population. This African American Student Spotlight includes all of the schools in the SFUSD serving close to or more than that same percentage of African American students.

For each school below, the pie charts show what percentage of African American students are enrolled. The bar charts show what percentage of students are on grade level. The African American state rate lines show what percentage of all African American students in the state are meeting or exceeding standards within that specific subject area (English language arts or math) and level of education (elementary, middle or high school). The overall state rate lines show what percentage of all students in the state are meeting or exceeding standards in that subject area and level of education.

Spotlight on Students with Special Needs

Students with special needs, or students who have been diagnosed with one of the 13 disabilities recognized by the California Department of Education*, currently make up 12% (6,275) of all students in SFUSD. The following spotlight provides an overview of how schools in SFUSD are doing in terms of their math and reading proficiency rates for students with disabilities. The schools listed tested at least 20 students with disabilities.

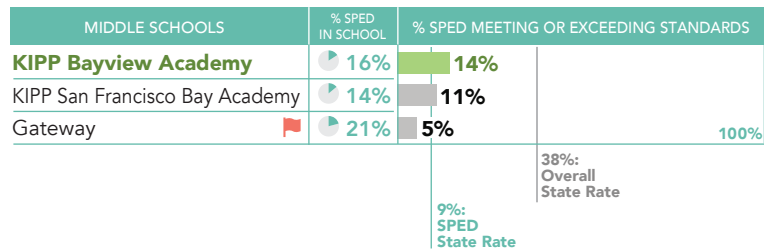

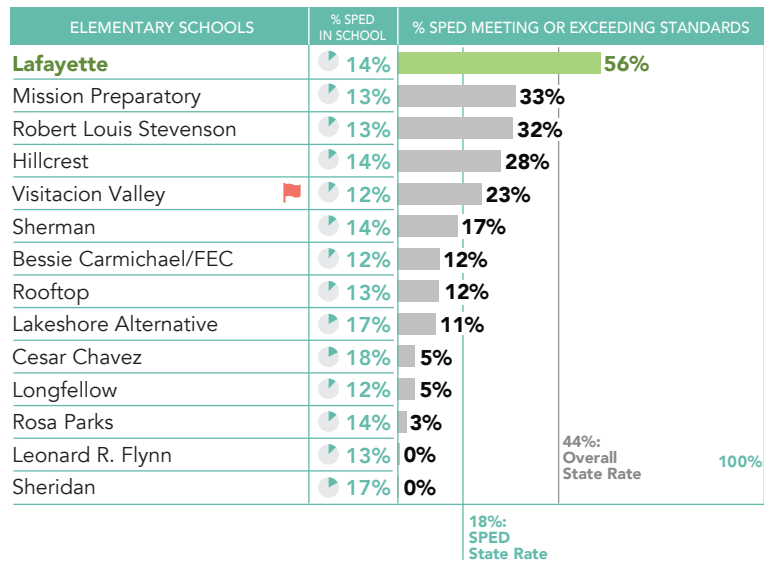

For each school below, the pie charts show what percentage of students with special needs are enrolled. The bar charts show what percentage of students are at or above grade level. The state rate lines show what percentage of all students with special needs in the state are meeting or exceeding standards within that specific subject area (English language arts or math) and level of education (elementary, middle or high school). The overall state rate lines show what percentage of all students in the state are meeting or exceeding standards in that subject area and level of education.

*The 13 disabilities recognized by the CDE are: Autism, Deaf-blindness, Deafness, Emotional disturbance, Hard of hearing, Intellectual disabilities, Multiple disabilities, Orthopedic impairment, Other health impairment, Specific learning disability, Speech or language impairment, Traumatic brain injury, and Visual impairment.

Note: Schools with nontraditional grade spans are included more than once on this sheet. Performance data was calculated with publicly-available data, and may be limited for some schools because the CDE does not report data for population sizes under 17 to ensure student confidentiality.

Spotlight on English Learners

English Learners (ELs) are students who speak a language at home other than English and are currently learning to read, write, listen, and speak in English. English Learners make up 28% (16,960) of all students in SFUSD. The following spotlight provides an overview of how schools in SFUSD are doing in terms of their math and reading proficiency rates for English Learners. The schools listed tested at least 20 English Learners.

For each school below, the pie charts show what percentage of English Learners are enrolled. The bar charts show what percentage of students are at or above grade level. The state rate lines show what percentage of all English Learners in the state are meeting or exceeding standards within that specific subject area (English language arts or math) and level of education (elementary, middle or high school). The overall state rate lines show what percentage of all students in the state are meeting or exceeding standards in that subject area and level of education.

Percentage of Students Meeting or Exceeding Standards, by other demographics

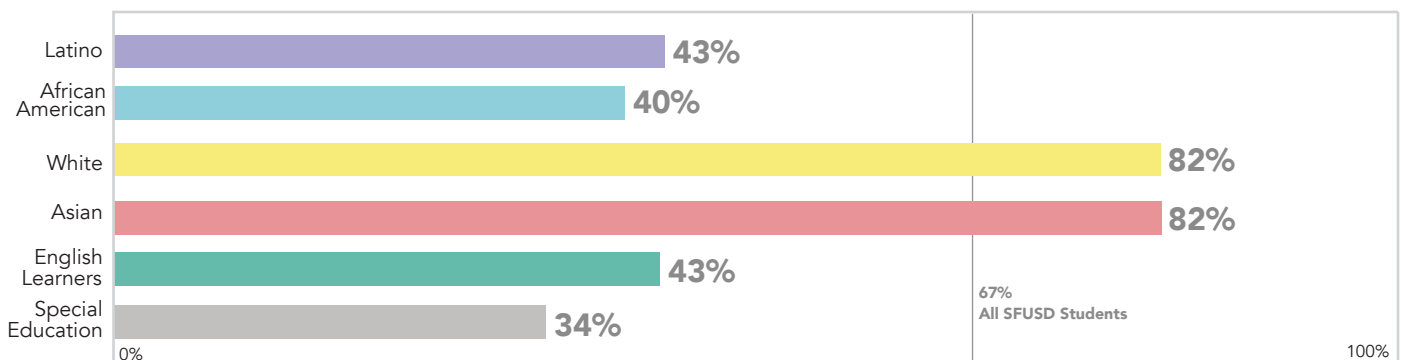

Source: California Department of Education, California Assessment of Student Performance and Progress (CAASPP), 2018-19

Although graduation rates are generally high in SFUSD, they don't tell the whole story. As of 2018-19, fewer than half of all African American, Latino, and low-income high school graduates in SFUSD meet eligibility requirements for a UC or CSU.

Percentage of Students Who Graduated from High School in 2018-2019

Percentage of High School Graduates Who Were UC/CSU Eligible in 2018-19
